PROFILE

Frontend Developer specialized in Flutter, skilled in integrating APIs using Dio and HTTP package. I work with multiple state-management approaches: using StatefulWidget for simple, localized UI state, and BLoC for handling complex application logic and shared state across screens. I focus on transforming backend data into smooth, reliable, and user-friendly frontend experiences with clean and maintainable architecture.

PROFESSIONAL EXPERIENCE

Flutter Frontend Developer 08/2025 – 12/2025
Riyadh

- Developed multiple Flutter projects involving dynamic and responsive UI using StatefulWidget.
- Managed state efficiently with BLoC for complex workflows, SharedPreferences for local storage, and value ValueNotifier simple, localized UI updates.
- Integrated backend APIs efficiently using Dio to fetch , and manage data in Flutter applications.
- Implemented dependency injection using **GetIt**

EDUCATION

Game Development bootcamp 09/2024 – 11/2024
SDA Saudi Digital Academy

Bachelor Degree in Computer Information Systems 11/2019 – 06/2024
Taibah University

GPA: 4.74/5

SKILLS

- Flutter & Dart
- Dependency Injection using GetIt, Injectable
- Databases Management skills(SQL)
- Game development using unreal Engine 5
- API Integration Dio, HTTP
